PROFESSIONAL SUMMARY

Over 5 years of experience in creating exceptional digital experiences. I specialize in modern web technologies and enjoy working on challenging projects that push the boundaries of what's possible on the web. When I'm not coding, you'll find me exploring new technologies, contributing to open-source projects, or sharing knowledge with the developer community.

KEY SKILLS

- **Certifications:** PMP (PMI), CBAP (Business Analysis), GFACT (Cybersecurity)
- **Technical Skills:** JavaScript; Advanced proficiency in modern JavaScript, ES6+, and frameworks
Python; Backend development, data analysis, and machine learning.
React; Modern React development with hooks, context, and state management.
Node.js; Server-side development, APIs, and microservices architecture.
TypeScript; Type-safe development and large-scale application architecture.
Java; Enterprise applications and object-oriented programming.
Cloud Platforms; AWS, Microsoft Azure, GCP.
- **Core Competencies:** IT Project Management, IT Program Management, Solutions architecture, Emerging Technologies and Trends: Artificial Intelligence (AI) and Internet of things (IoT).
